

# BLACKline

The BLACKline instruments receive with a DLC (Diamondlike carbon) coating a high-end finish.

The matt finish eliminates disturbing reflections. This is an important aspect for working under the microscope, which is becoming increasingly important in endodontics.

The BLACKline increases working comfort while adding ergonomic elements and offers superior advantages for every purpose.

# BLACKline

## ULTRA FS

## MEGA FS Rhodium

### DLC Coating for High-End Finish

#### Eye-friendly work

under bright light and magnification due to the deep black, matt surface.

#### Precisely sharp reflection

thanks to front surface coating.

#### Optimized cheek retraction

through wide, contoured stem bases.

#### Highest reflection

for brilliant brightness, especially with ULTRA FS.
